INDEX

A

Azimuth system, 3-6

C

Cardinal point system, 3-5 to 3-6
Charts, 3-7
Commercial time-conversion aids, 2-5
Computations involving daylight saving time (DST), 2-4 to 2-5
Computations involving the International Date Line, 2-4
Computing time in geographic positions, 2-2 to 2-3
Conversion from local time to ZULU time, 2-1
Conversion from ZULU time to local time, 2-2

D

Daylight saving time (DST), computations involving, 2-4 to 2-5
Designators "+" and "-", 1-2

E

Expression of time, 1-4

G

Geographic positions, computing time in, 2-2 to 2-3
Geography and plotting, 3-1 to 3-12
- azimuth system, 3-6
- cardinal point system, 3-5 to 3-6

Geography and plotting—Continued
- charts, 3-7
- direction, 3-4 to 3-6
- geographic coordinates, 3-2
- latitude, 3-2 to 3-3
- longitude, 3-3 to 3-4
- maps, 3-6 to 3-7
- Mediterranean Sea, 3-9
- meridians, 3-1
- Middle East/Persian Gulf, 3-9 to 3-11
- parallels, 3-1
- projections, 3-7 to 3-9
- Western Pacific, 3-11 to 3-12

Greenwich mean time (GMT), 1-1 to 1-5
- expression of time, 1-4
- global division and designators, 1-1 to 1-2
- International Date Line, 1-4 to 1-5
- physical characteristics of time zones, 1-1 to 1-4
- zone-to-zone progression, 1-5

I

International Date Line, 1-4 to 1-5,2-4

L

Latitude, 3-2 to 3-3
Literal (letter) designators, 1-2
Local time to ZULU time, conversion from, 2-1
Longitude, 3-3 to 3-4

M

Maps, 3-6 to 3-7
Mediterranean Sea, 3-9

Mercator projection, 3-8 to 3-9
Meridians, 3-1
Middle East/Persian Gulf, 3-9 to 3-11

N

Numerical designators, 1-2

P

Parallels, 3-1
Physical characteristics of time zones, 1-2 to 1-4

T

Time-conversion computation, 2-1 to 2-7
- commercial time-conversion aids, 2-5
- computations involving daylight saving time (DST), 2-4 to 2-5
- computations involving the International Date Line, 2-4
- computing time in geographic positions, 2-2 to 2-3

Time-conversion computation—Continued
- conversion from local time to ZULU time, 2-1
- conversion from ZULU time to local time, 2-2
- time-conversion table, 2-5

Time theory, 1-1 to 1-6
- expression of time, 1-4
- global division and designators, 1-1 to 1-2
- Greenwich mean time (GMT), 1-1 to 1-5
- International Date Line, 1-4 to 1-5
- physical characteristics of time zones, 1-2 to 1-4
- zone-to-zone progression, 1-5

W

Western Pacific, 3-11 to 3-12

Z

Zone-to-zone progression, 1-5
ZULU time to local time, conversion from, 2-2
